

**Figure 1**

Figure 1 consists of two panels, A and B, showing histograms of the number of non-zero elements in the sparse matrices  $\tilde{A}$  and  $\tilde{B}$ , respectively.

Panel A: Histogram of the number of non-zero elements in  $\tilde{A}$ . The x-axis is labeled "Number of non-zero elements" and ranges from 0 to 100. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is unimodal and centered around 60-70.

Panel B: Histogram of the number of non-zero elements in  $\tilde{B}$ . The x-axis is labeled "Number of non-zero elements" and ranges from 0 to 100. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is unimodal and centered around 60-70.
